

REPORT OF SCHOLAR SUPPORT PROGRAMME (SSP) 2017-18

Dr.K.P.Jaikiran, Programme Director FLAIR, (For Officer on Special Duty, New Initiatives in Higher Education), Department of Higher Education, Government of Kerala informed that in this academic year there is a slight delay for starting the Scholar Support Programme under the New Initiatives in Higher Education due to some reasons. This was the letter that he send to our college.

“The year 2016-17 has been a remarkable year for the Scholar Support Programme as there was a renewed interest among the students, thanks to the wonderful support of the institutions, coordinators and mentors. The overwhelming support received from the various quarters has helped us to conduct the programme in a more effective manner ensuring maximum benefits to deserving students. The State Motivation Camp for SSP introduced as a pilot during the year was a big success, as student satisfaction tells us. I'm sure there will be lot of enquiries about the continuance of the programme during the year 2017-18.

There is a slight delay in the starting of the programmes under the New Initiatives in Higher Education due to the changes in staff deployment in the Office of the New Initiatives and also discussions that are taking place in the various programmes for more effectiveness. I request all respected Principals to please wait for communication from our Office regarding the future of the programme.

I assure our esteemed patrons that we will communicate any information about the programme for the year 2017-18, as and when we come to know of it.

Let me once again express our profound interest for the great support to the programme”

SSP Coordinator

Sufaira Shamsudeen
