

MSc BIOCHEMISTRY

Program Outcome

PO1: Can opt for Research (PhD and PDF) so that they can put in their expertise for solving challenges.

PO2: The students are equipped with knowledge on using the latest equipments so that they can work in various laboratories, hospitals etc.

Program Specific Outcome

PSO1: Imparts knowledge on the various biochemical tests that are used in laboratories devoted to healthcare.

PSO2: Students are taught to use specialized instruments for biochemical analysis.

PSO3: Graduates achieve a firm foundation of the basic of biochemistry and its implications in various fields.
