Alumni feedback was also collected during the meeting. Feedback helps to analyze how they feel about the college, the program they studied, and the facilities provided by the college. From the survey, the majority of students are satisfied with the teaching methods, facilities provided by the college, and the resources available in the library/laboratory. The major issue raised by them is regarding the outdated course content. Another problem they pointed out is that the skill imparted in the institution for professional development is average. The feedback from alumni helps to understand the problems that are to be rectified and to bring overall improvement in all areas.

The meeting came to an end by 2:00 p.m.
