

# MES ORMA ALUMNI ASSOCIATION

## Annual Report 2020-21

### CAMPUS TO CORPORATE SESSIONS.

#### 1. DEPARTMENT OF COMPUTER APPLICATIONS

##### 1. SETTING THE COGWHEELS – CLOUD SYSTEM & TECHNOLOGIES: SCOPE, FUTURE AND SPECIALIZATION- ALUMNI INTERACTION WEBINAR SERIES-I

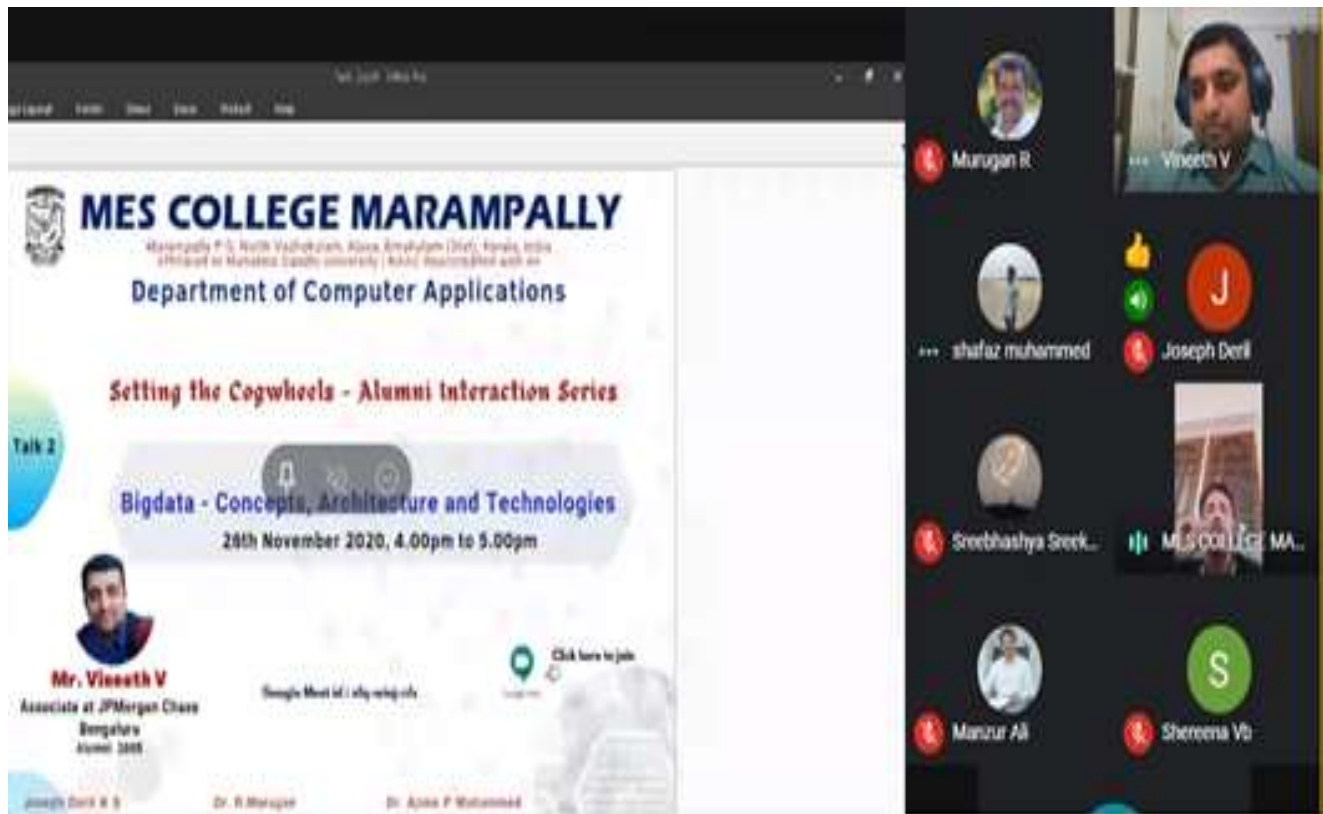

Department of Computer Applications, MES College Marampally organized an Alumni Interaction Series, of which, the first talk was held on November 14, 2020(Saturday). The session was handled by the Alumni of 2012 batch, Mr. Ajith Kumar S, Senior Project Engineer, Wipro Ltd. The Session started by 11 am and the session was welcomed by Mr. Joseph Deril K S, coordinator of the webinar series and Associate Professor (Dept of Computer Applications). The head of the Department, Dr. Murugan R (Department of Computer Applications), conveyed his warm regards for the series. The inaugural address was done by Principal, Dr Ajims P Mohammed, who conveyed the importance of the session and warm wishes for the success of the event.

The resource person Mr. Ajith Kumar commenced the talk over the zoom platform on the topic: 'Cloud System & Technologies: Scope, Future and Specialization'. About 110 students and faculty took part in our webinar on to learn some expert advice on industrial knowledge and engagement required for attaining a successful tech life in parallel with the increasing technological advancements in IT field. The resource person explained the steps to be followed in choosing the career path and also on survival bias, the pressure and strain to overcome before achieving success.

He also detailed about the cloud email services tool 'Salesforce' for business development and how flexible and easy to handle such kind of services for every business organizations these days. The fact that the cloud system paves way is that we don't need to manage an email server any longer. Today's cloud-based hosting solutions will help save your money, boost your security and free up more time for you to focus on what matters to your business the most. The resource person shared his own training period experiences with the Wipro Ltd. Many attendees sent in their questions and key challenges they might face after graduating from the current course with the mentor. The talk handled a relevant topic and was interesting and helpful. The first day talk ended by 1:00pm. Students filled out the feedback forms and most of them shared a very good

response for the event on attaining extra skill and knowledge. Finally, vote of thanks was conveyed by Farook Jamal, Student from final year BCA.

## 2. SETTING THE COGWHEELS-BIG DATA-CONCEPTS, ARCHITECTURE AND TECHNOLOGIES-ALUMNI INTERACTION WEBINAR SERIES -II

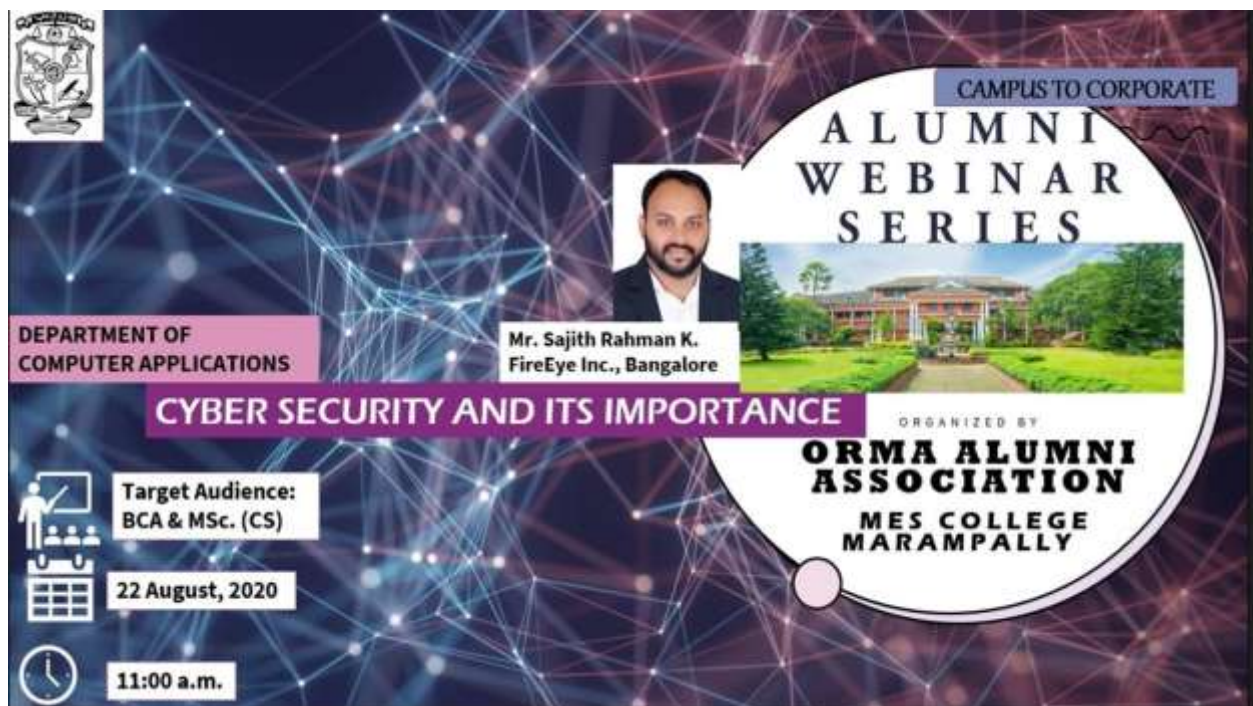

The Department of computer applications, organized an Alumni Interaction Series, of which, the second talk was held on November 26, 2020 (Thursday). The session was handled by the Alumni of 2005 batch, Mr. Vineeth V., currently working as Associate at JPMorgan Chase, Bangalore. The session started by 4 pm (IST) and the session was welcomed by Dr. Murugan R, Head of the Department of Computer Applications. Afterwards principal's address was done by Dr. Ajims P Mohammad, who conveyed the importance of the session and warm wishes for the success of the event. The Vice Principal of the college, Dr. Manzur Ali P P delivered the felicitation address and conveyed his warm regards for the series. The resource person Mr. Vineeth V commenced the talk over the google meet platform on the topic: 'Bigdata: Concepts, Architecture and Technologies.'

Over 100 students and faculty took part in our webinar on to learn some expert advice on Big Data concepts starting from the basic understanding about what is data, the 5Vs to define Big Data and how to solve the big data problems with Hadoop. He also detailed about the Hadoop

ecosystem by emphasizing that Hadoop Ecosystem is neither a programming language nor a service, it is a platform or framework which solves big data problems. You can consider it as a suite which encompasses a number of services (ingesting, storing, analyzing and maintaining) inside it. The resource person conveyed the future scope of The Big Data that predicts that such data sets will come into the limelight this year and further revolutionize the technology further. As the technology becomes more complex and integrates with other technology, the industry will continue to evolve and require specialized experts for niche job roles and responsibilities. Many attendees sent in their queries related to their Big Data related doubts with the mentor. The talk handled a relevant topic and was interesting and helpful. The second day talk from the webinar series ended by 5:30pm. Finally, vote of thanks was conveyed by Assistant Professor, Ms. Shereena V B from Department of Computer Applications, who conveyed the gratitude from the Computer Department to each and every one attended the session.
