**Environment consciousness policy**

## **POLICY ON ENVIRONMENTAL CONSCIOUSNESS**

This policy document outlines the commitment of our college to promote environmental consciousness among students, faculty, staff, and all stakeholders. As an educational institution, we recognize the vital role we play in cultivating a culture of sustainability and responsibility towards the environment. This policy aims to integrate environmental considerations into all aspects of our college operations and foster a sense of environmental stewardship within our community.

### **Guiding Principles**

#### **Environmental Education**

We prioritize the environmental education and awareness through various programs, workshops, seminars, and awareness campaigns.

#### **Sustainable Campus Operations**

Our college is committed to integrate sustainable practices implement sustainable practices in campus operations, including waste management, energy conservation, water usage, and responsible procurement of resources. We continually seek ways to minimize our ecological footprint.

#### **Community Engagement**

We focus on actively engage students, faculty and other staff in environmental initiatives. Collaboration with local environmental organizations and participation in community-based projects are always encouraged.

#### **Biodiversity Conservation**

We strive to protect and enhance biodiversity within the college premises. Creating green spaces, preserving native flora and fauna, and promoting eco-friendly landscaping practices are always prioritized.

## **Key Objectives**

### **Energy Efficiency**

Implement energy-efficient technologies, optimize energy usage, and explore renewable energy sources to reduce our carbon footprint.

### **Waste Reduction and Recycling**

Promote waste reduction practices, encourage recycling initiatives, and implement proper waste segregation and disposal systems.

### **Water Conservation**

Adopt water-saving measures, repair leaks promptly, and raise awareness about responsible water usage.

### **Green Campus Initiatives**

Develop and maintain green spaces, encourage urban gardening, and promote eco-friendly transportation options.

### **Sustainable Events**

Host and participate in environmentally responsible events and activities, minimizing waste generation and promoting sustainable practices.

### **Plastic free campus**

Strengthen green campus initiatives, organize programmes to spread awareness in the campus and nearby areas

## **Conclusion**

As a college committed to academic excellence and societal responsibility, we understand the significance of environmental consciousness in shaping a sustainable future. By adhering to this policy, we pledge to instill environmental values and practices in our college community, making a positive impact on the environment and inspiring future generations to become environmentally conscious global citizens.
