## **Action Taken Report: Academic Audit 2018-19**

The Academic Audit held on June 21 and 22, 2019 provided valuable insights into the institution's performance and highlighted areas for improvement. Here is a detailed action taken report addressing the recommendations and suggestions provided in the audit:

- Implemented measures to increase enrollment in certificate/add-on courses
- Initiated plans to introduce additional BVoc and MVoc courses in alignment with industry demands.
- Enhanced feedback mechanisms to gather comprehensive inputs from stakeholders for continuous curriculum improvement.
- Recognized faculty achievements and encouraged participation in professional development programs
- Addressed the need for research centers in aided PG departments and initiated the application process.
- Raised concerns about the delay in semester examination results with the University for prompt resolution.
- Established a startup cell and Innovation and Entrepreneurship Development Cell (IEDC) to foster entrepreneurial skills among students.
- Continued investment in infrastructure development, including the addition of smart classrooms and procurement of books and e-journals for the library.
- Encouraged faculty utilization of the studio floor for e-content creation and ensured the maintenance of an optimal student-computer ratio.
- Procured additional computers to maintain the student-computer ratio.
- Increased the number of management scholarships to support needy students.
- Strengthened alumni engagement activities and expanded outreach through international and national chapters.
- Provided financial support to staff for attending conferences and professional development programs.

- Utilized the received funds from UGC, KSCSTE, and the Directorate of Minority Welfare effectively to support various academic and student-centric initiatives.
- Enhanced transparency in financial management and ensured proper allocation of resources.
- Sustained efforts in promoting gender equity, eco-friendly practices, and social responsibility initiatives.

In conclusion, the institution has taken proactive steps to address the recommendations outlined in the Academic Audit 2018-19. Continuous efforts are being made to enhance various aspects of academic, administrative, and student support functions to maintain and improve the quality of education and overall institutional excellence.
