## **Action Taken Report: Academic Audit 2020-21**

The main objective of the action taken report is to address the recommendations and suggestions provided in the Academic Audit Report held on July 02 and 03, 2021 and to implement necessary actions for continuous improvement.

### **Summary of action taken report:**

- Implemented a structured process to analyze stakeholder feedback and communicate suggestions to the University for Curriculum Enhancement.
- Launched initiatives to incentivize and support faculty members in pursuing Ph.D. programs, including granting special leaves and incentives upon successful completion.
- Encouraged faculty and students to engage in research activities through virtual seminars, workshops, and research paper presentations.
- Emphasized innovation through the Innovation and Entrepreneurship Development Cell (IEDC).
- Introduced initiatives to promote daily library usage, including assigning library-based tasks to students and organizing awareness campaigns.
- Organized online capacity-building programs for students, focusing on career guidance and skill development.
- Implemented measures to enhance transparency and efficiency in financial management, including regular internal and external audits and resource mobilization policies.
- Implemented initiatives to further promote environmental sustainability, including waste management, water conservation, and eco-friendly practices.

The Action Taken Report highlights the proactive measures implemented to address the recommendations outlined in the Academic Audit Report 2020-21. Through continuous monitoring and improvement, the institution is committed to upholding academic excellence and fostering holistic development.
